

## Scope of Engagement

### Full Stack Intern

---

#### About Hopnob

Hopnob is an AI backed fashion platform which seeks to empower the next billion with personalized fashion – styling and shopping. Started in February 2022 by two IIM-A MBA graduates, Hopnob is currently in the MVP development stage. Hopnob was funded for its pre-seed round by the IIM Ahmedabad Endowment Fund comprising contributors such as Deep Kalra (Make My Trip), Sandeep Singhal (Westbridge Capital), VT Bharadwaj (A91 Partners), GV Ravishankar (Sequoia India) etc.

#### Internship/Project Scope

We are looking for a Full Stack Developer to produce scalable mobile application solutions. You'll be part of a cross-functional team that's responsible for the full software development life cycle, from conception to deployment. As a Full Stack Developer, you should be comfortable around both front-end and back-end coding languages, development frameworks and third-party libraries. You should also be a team player with a knack for visual design and utility.

#### Responsibilities

- Work with development teams and product managers to ideate software solutions
- Design client-side and server-side architecture
- Build the front-end of applications through appealing visual design
- Develop and manage well-functioning databases and applications
- Write effective APIs
- Test software to ensure responsiveness and efficiency
- Troubleshoot, debug and upgrade software
- Create security and data protection settings
- Build features and applications with a mobile responsive design
- Write technical documentation
- Work with data scientists and analysts to improve software and implement the APIs

## Qualification/Skill Sets

- Bachelor's degree/ master's degree/ currently pursuing in computer science, image processing, software development, or another related field.
- Experience developing desktop and mobile applications
- Familiarity with common stacks
- Knowledge of multiple front-end languages and libraries (e.g. HTML/ CSS, JavaScript, XML, jQuery)
- Knowledge of multiple back-end languages (e.g. C#, Java, Python) and JavaScript frameworks (e.g. Angular, React, Node.js)
- Familiarity with databases (e.g. MongoDB , Rocksdb), web servers (e.g. Apache) and UI/UX design
- Excellent communication and teamwork skills
- Experience in Apollo graphQL is a must .
- Great attention to detail
- An analytical mind
